

NEPMA

NEW ENGLAND PEST MANAGEMENT ASSOCIATION, INC.

Become an NEPMA vendor sponsor today.....

The New England Pest Management Association, founded in 1933, is an organization of pest management professionals from Maine, Massachusetts, New Hampshire, Rhode Island and Vermont. Working in collaboration with the National Pest Management Association, we promote professionalism for our industry.

NEPMA provides many services that are highly valued by its membership. We are committed to providing a full scope of educational opportunities for technicians to sales staff to managers. NEPMA hosts two multi-day educational conferences yearly...one in the spring and one in the fall. These seminars qualify for continuing education credits toward re-licensure and the exhibit halls provide attendees with the opportunity to learn about current products and services. In addition, the Association holds a series of Education Express workshops around the region. Company owners and managers are also invited annually to a management program.

Controlling Interest is our newsletter that is published six times a year to keep members abreast with news from the nation and New England states and about Association activities, schedules of events, legislative and regulatory affairs, pest management industry feature articles, and more. *Controlling Interest* is our communication tool among our members and the public.

Each year, NEPMA holds several membership meetings where it recognizes the best in the New England region with:

- ***The Bart Eldredge Award*** for continuous distinguished service to the industry
- ***The Professional of the Year Award*** for superior performance
- ***The Vendor of the Year Award*** for superior involvement
- ***The Mark Weintraub Scholarship*** awarded to a deserving high school graduate

In September, the membership gathers to enjoy a day of golf and a BBQ dinner, providing an enjoyable networking opportunity.

These are just some of the many great marketing opportunities and values of vendor sponsorship in the New England Pest Management Association.
