# NEPMA

NEW ENGLAND PEST MANAGEMENT ASSOCIATION, INC.

Thank you for joining us at the New England Pest Management Association's 2021 Virtual Fall Conference.

While we all wish we could be meeting with our exhibiting vendors and suppliers in person, we are excited to provide this guide to help you explore the amazing products and services from the brands and representatives you know and love.

We hope this guide serves as a year-round resource to you, and that you keep it on hand for regularly contacting your partners in pest control. Much of what we do as an association depends upon the support of our sponsors and exhibitors. During this unprecedented time in our history, please take the time to pay it forward and support them, simply by sharing this guide with a colleague or team member. After all, supporting one another is part of what makes this industry so great.

Print or save this guide to your computer, email it to others, and visit our vendors' pages at [www.nepma.org](http://www.nepma.org) to learn more about the latest and greatest innovations and trends in their arsenals to help you conquer all your pest-related challenges.

Be sure to stay in touch throughout the year by following us on Facebook (@nepest) and LinkedIn (@nepma). And as always, you can visit us on the web at [NEPMA.org](http://NEPMA.org) for the latest up-to-date information.

We look forward to connecting with you throughout the year!

# George Williams

800-888-4897 or  
781-939-3144

George.Williams@Veseris.com  
[www.pestweb.com](http://www.pestweb.com)

**FUN FACT:** Growing up in NYC I was always a Red Sox fan because my favorite player was Carlton Fisk. It was not easy being a kid in NYC wearing Sox swag. My immediate family were all Mets fans after the Dodgers left Brooklyn for LA. Everyone else were Yankee fans. I actually liked many of the Yankees players (Guidry, Nettles, Munson, etc.) but HATED George Steinbrenner and Billy Martin and then in the 80's the fans (arrogant stockbroker types) took over the fan base making me love the Sox more.

# Inventory Manager

by **VESERIS**

## Introducing Inventory Manager by Veseris App based simplicity for easy use on any screen

- Designed for easy setup and use to accommodate diverse ranges of software experience and comfort at the field level.
- Manage an unlimited number of products
- Manage an unlimited number of branch locations and trucks
- All from an iPhone, iPad, Android phone, Android tablet, or computer. You decide!

### Why Inventory Manager?

- Written from the ground up for PMP's as a total inventory management solution
- Control company approved products at the branch and truck level
- Control maximum and minimum inventory levels at the branch and truck level
- Control product re-order frequency and re-order points including replenishment quantities
- Track technician use to budget as a % of route revenue
- Eliminate waste and improve working capital due to inventory accuracy, chemical asset tracking, and labor reductions associated with managing inventory

# PROTECTING HOME AND HEALTH.

Let's face it. It's not only about protecting property anymore. It's also about protecting the health of homeowners.

- + Pests are believed to cause more structural damage to homes each year than fires and storms combined.
- + Mold and Pests that thrive in moist environments are a common cause of health issues and allergies.

Santa Fe offers a complete line of free-standing dehumidifiers that feature MERV-13 filtration and an industry-leading 6-year warranty. Protect your customers' homes and health while growing your business by controlling wet conditions that can lead to mold and pest infestation and removing harmful contaminants in the air.

**Santa Fe is here for you.** Whether it's customer support, stocked inventory, or superior products, we have your back during busy times, and all times.

# Good for business. Bad for rats and mice.

With its fast colony kill and impressive labor savings, **Selontra** rodent bait delivers real advantages for your business. It controls entire infestations in just seven days\*, and it's effective against anticoagulant-resistant rodents. Its shortened baiting program uses less bait than conventional rodenticides, and the stop-feed action of the active ingredient, cholecalciferol, makes a little go a long way: rodents eat only enough for a lethal dose. Delivering proven efficacy with lower labor and material costs, **Selontra** rodent bait takes care of business while making yours more efficient.

See proven results at [pestcontrol.basf.us](http://pestcontrol.basf.us)

## Spider control that means business

### ***Fendona® CS controlled release insecticide***

Spiders beware. **Fendona CS** controlled release insecticide features an advanced micro-encapsulation for broad coverage that stubbornly clings to spider legs, web threads and the surface of egg sacks for fast kill. It preserves the active ingredient, alpha-cypermethrin, to provide up to 90-day residual control of brown recluse, cellar and black widow spiders. And it reduces spider sightings and costly callbacks, so you can protect your customers and your bottom line.

To learn more, visit [pestcontrol.basf.us](http://pestcontrol.basf.us) or contact your BASF Sales Specialist.

Always read and follow label directions.

Please check with your state agency responsible for pesticide registration to ensure registration status. All but PROVERDE products are EPA registered. PROVERDE BROAD SPECTRUM INSECT KILLER, PROVERDE DUST INSECTICIDE, and PROVERDE WASP & HORNET KILLER have not been registered by the United States Environmental Protection Agency. Envance Technologies, LLC represents that PROVERDE products qualify for exemption under the Federal Insecticide, Fungicide, and Rodenticide Act.
